OBJECTIVE

Dedicated and results-oriented software engineer with a passion for creating efficient, scalable, and innovative solutions. Seeking to leverage my technical expertise and problem-solving skills to drive software development excellence in a dynamic tech environment. Motivated software engineer driven to achieve excellence in every project. Skilled in developing scalable backend solutions and RESTful APIs.

SKILLS

- **Technical Skills:** HTML&CSS, JavaScript, NodeJS, ExpressJS, MongoDB, Git/GitHub, Agile/Scrum Methodologies.
- **Non-Technical Skills:** Team collaboration, Effective communication, Time Management, Interpersonal skill, Critical Thinking, problem solving.

EXPERIENCE

Back-End Software Developer Intern

Stutern

Sept 2022 - August 2023

- Contributed to the development of a web application.
- Collaborated with cross-functional teams to design and implement RESTful APIs, enhancing system interoperability.
- Participated in code reviews and debugging sessions, ensuring software quality and performance.
- Assisted in designing database schemas and optimizing queries for improved data retrieval.
- Documented all APIs built for the server side.

EDUCATION

Stutern Graduate Academy

Software Developer

Sept 2022 – August 2023

Obafemi Awolowo University

BSc. International Relations

Ile-Ife, Osun State

2016 – 2020

PROJECTS

VentBurst App (*September 2023*)

NodeJS, ExpressJS, MongoDB, Postman

- Contributed to the development of a web app where users can vent out and discuss their issues to other users anonymously using Node.js, Express.js, MongoDB database.
- Collaborated with cross-functional team members in different fields (UI/UX Designers, Frontend Team).
- Built APIs endpoint for the various routes for functionality of the web app.
- Integrate Websocket Library(Socket.io) to enable real-time communication

Legal Buddy Website Application (*August 2023*)

EJS, NodeJS, ExpressJS, MongoDB, Postman

- A legal website where individuals get access to lawyers closer to them online.
- Built an endpoint route for Authentication and Authorization.
- Integrate the AI feature chatbot to the website application.
- Integrate Google APIs to enable user login to the website using their google account.
- Collaborated with cross-functional team members (frontend, backend, AI, product designers, product managers, marketers, scrum masters) to enable the project come to live
- Website Link: <https://legal-buddy.onrender.com>

Contact Manager Backend Application (*June 2023*)

NodeJS, ExpressJS, MongoDB, Postman

- Worked on the CRUD APIs for a Contact Management App.
- Built an endpoint route for User Contact Authentication and Authorization.
- Source Code: [deedee-code/Contact-Manager-App: Built the server side for a contact management App using NodeJS, ExpressJS, Mongoose \(github.com\)](https://github.com/deedee-code/Contact-Manager-App)

Loanwise App (*April 2023*)

NodeJS, ExpressJS, MongoDB, Postman

- A web app that helps financial analysts and organizations to predict if a borrower will default or not after they receive a loan.
- Collaborated with team members in different fields (UI/UX Designers, Frontend Team, Data Science Team and my team member in the Backend Team).
- Built APIs endpoint for the various routes for functionality of the web app.
